1.0 DELEGATION AND OVERALL CONTROL OF THE BUDGET

- 1.2 The general financial objectives are:
- establish proper financial management arrangements and accounting procedures and maintain a sound system of internal controls, including safeguards against fraud and error;
 - ensure the delegated budget is used for the purposes intended;
- 1.3 The Trust should have a clearly defined organisational structure with identified lines of reporting for all operations.
- 1.5 The CEO has responsibility for:
- The management of the Trust's financial position at a strategic and operational level
 - The management of effective systems of internal control
 - The management of other financial issues.
- 1.6 The CEO is the person with overall responsibility for the financial management of the Trust. The CEO will ensure that the board is provided with financial advice, that proper and adequate financial systems and controls are in place and that accounts are prepared and maintained as required by the board.
- In practice, the CEO may delegate much of the financial management to the Finance Manager, while retaining ultimate responsibility for it.
- 1.7 The Board and Trust staff have a responsibility to avoid any potential conflict between their own business and personal interests, and the affairs and interests of the Trust.

2.0 FINANCIAL PLANNING

- 2.1 Board Members and the CEO must have regard to the need to provide a broad and balanced range of services and education and training provision for the benefit of the individuals and the community in which we work.

- 2.2 In budgeting the board should be bear in mind that appropriate action may need to be taken during the year to deal with variations between actual and budgeted income and expenditure. The budget should

therefore be based on a hierarchy of assumptions and priorities, aiding swift changes of plan in reaction to changes of circumstances.

- 2.3 The process of setting the Trust's budget will involve the balancing of expenditure against income. The following steps should be taken to ensure all information has been considered:

- ensure everyone involved in the process is aware of the assumptions, constraints and targets which have been determined by reference to the Trust's Strategic Action plan.
- estimate the costs of each element in the overall plan.
- estimate future years delegated budgets. Uncertainty about funding is inevitable therefore base the budgets on an estimate of these fluctuations and knowledge of funding streams.
- compare income and expenditure to identify the potential surplus or shortfall in funding required to meet the objectives in the Trust's Strategic Action Plan.
- identify savings in expenditure or allocation of any surplus identified to areas of need highlighted in the strategic plan.
- following the recommendations from the CEO and Finance Manager, the board shall approve the budget plan for the following financial year.
- inform those members of staff with financial responsibilities what their budgets are, together with any constraints imposed.
